WEB DEVELOPER

Full Stack Web Developer recently graduated from Coding Bootcamp from UC Berkeley. Adept at creating fully functioning web applications from the ground up. Excellent team collaborator, well equipped to tackle conflicts, especially in a group setting. Articulate communicator, fast-learner, always looking forward to the next challenge.

TECHNICAL SKILLS

Languages: HTML, CSS, JavaScript, jQuery, AJAX, Node.js, Express, SQL, Mongo/Mongoose
Applications: Bootstrap, Materialize, Firebase, Handlebars, Sequelize, React, MERN

PROJECTS

Unlock It! | https://github.com/HebahM/thehunt | https://unlock-it.herokuapp.com/
- The Unlock It! application provides a creative way for educators to engage students while still teaching them useful information.
- Personal contributions include UI design, Google Maps API, writing to and pulling from the database.
- HTML, CSS, MongoDB/Mongoose, Express, React, Node.js, Bootstrap, Sass, Axios, bcrypt.js, JSON Web Token

Coffee Express | https://github.com/HebahM/drinks-to-go | https://secret-ocean-08123.herokuapp.com/
- Coffee Express is a Web application designed to be implemented at self-serve kiosks in coffee shops to speed up and simplify the order process.
- Personal contributions: UI/UX design and APIs, including Spotify.
- HTML, CSS, Materialize, JQuery, Express, MySQL/Sequelize, Node.js, Handlebars, Dotenv, RegEx, ESLint

EXPERIENCE

Al-Iman Academy of Mobile, Mobile, AL — 2018-2020
Teacher
- Taught middle and elementary school students math, science, and social studies to ensure they met the state requirements.
- Substituted for various subjects and grade levels as needed.
- Acted as additional counseling support for middle school to ensure the students' needs were being met.

US Team Ink, Houston, TX — 2016-2017
Office Manager
- Handled digital orders; ensured deliveries were being completed on time.
- Managed production staff and quality control.
- Recognized by manager for excellence in client relations.
